

Summer week 5

Saturday 25th July–Saturday 1st August

Theme: Peace is coming

All of nature's cycles – such as the cycle of water, the cycle of day and night, and the four seasons – speak of a cosmic principle: that after darkness comes light. Human evolution is now embarking on a cosmic spring, where the coldness of intolerance and war will gradually be replaced by the warmth of peace and love. We can all become an active part of the coming of spring.

Day	Morning lecture 9.30	Symbol lecture 16.00	Evening lecture 19.00
