

Summer week 6

Saturday 1st August–Saturday 8th August

Theme: Inner wholeness unites the world

The world around us reflects our innermost selves. A divided world cries out for unity and cooperation across artificial boundaries. With self-knowledge and compassion, we can heal our relationships. Kindness and love are contagious and spread. The more we ourselves become whole, the more we can contribute to healing the world. Spiritual science and prayer can be crucial tools for this.

Day	Morning lecture 9.30	Symbol lecture 16.00	Evening lecture 19.00
